GreaseSpot #18 – Portable Center Stands

The purpose of the 'GreaseSpot' is to share ideas and tips on 'two wheel vehicle' maintenance (Bicycle and Motorcycle). Questions, ideas and tips come from our fellow riders, and they can be on most any topic of maintenance. GreaseSpot #17 focused on 'Chain Cleaning Part 2'; if you would like us to resend this GreaseSpot just let us know (info@greaseninja.com).

We have received several strong recommendations on two popular 'Portable' Center Stands which are especially usefully when out on the road. The advantages of these portable stands are:

- a. Small and compact for taking on a road trip.
- b. Enables drive chain cleaning, lubing, and adjustment
- c. One person operation

Dave from Minnesota uses the 'PackJack' / Martyn from Canada uses the 'Wheel Spinner Stand'

Both Dave and Martyn say that without having a center stand, they need the ability to spin the rear tire to properly service their drive chains when riding cross country.

If you have an idea on maintenance; please share it with us. If we use it, we will send you a GreaseNinja® Spray Tube Kit or First Aide Starter Kit in appreciation. www.GreaseNinja.com

Thanks....Earl
